Arkansas State University
M.S. Sport Administration
Internship

The M.S. Sport Administration Online Program internship (6 credits) is offered each term: Fall, Spring or Summer terms. The internship application process is completed in the university’s Blackboard organization: MS Sport Administration Online.

The 6-credit internship must be completed at a sport, athletics or recreation-related organization (e.g. intercollegiate athletics, campus recreation, interscholastic athletics, professional sports, sport agencies, sport facilities, municipal parks & recreation departments, etc.) with some administrative duties. Students enroll in two consecutive 3-credit classes.

Students are required to obtain a new administrative-related experience, beyond the student’s current work responsibilities if they are already employed in the field. If the student currently works in administrative capacities in a sport or recreation environment, they may use up to 150 hours toward their required 300 total hours. The internship site can be at the current work place, but must have added managerial responsibilities to the current job duties. The internship requires a minimum of 300 work hours during the full university (e.g. Fall, Spring or Summer). Internship classes are offered year round (F, Sp, or Su). Each term, the student works approximately 150 actual work hours.

Students are eligible to apply for internship if they will have completed at least FOUR Sport Administration program courses prior to the internship term. University policy allows students to be enrolled in a maximum of 6 credits per online term. Therefore, students may complete their internship concurrently with one other class each term if desired.

Once admitted, students should review all required internship documents and other program information which is found in their Blackboard Home under My Organizations. If you do not have access to this organization, using your AState email account, please email Dr. LaVetter, Program Coordinator, lavetter@astate.edu. Please feel free to send any questions to Dr. LaVetter.
